### Description

Welcome to the next generation of the world's leading digital commerce platform! Built on open-source technology, Magento Commerce provides online merchants with unparalleled flexibility and control over the look, content, and functionality of their online stores. Magento's intuitive Admin features powerful marketing, search engine optimization, and product management tools that give you the power to create sites that are tailored to your unique business needs. Robust and scalable, Magento offers you a stable, secure, and customizable solution for your growing business.

Magento 2 Demo is the live demo site that brings the real experience on Mageplaza extensions instead of [installing Magento 2](#) on localhost. Magento 2 Demo with sample data allows you interacting as a customer in the frontend and working as an admin in the backend.

Using the online **Magento 2 Admin Demo** is the perfect solution that helps you enjoy all utilities of Magento 2 without any installation. The demo is guaranteed to work well by the timely assistance of Mageplaza Technical Team.

## [TMT2-2] Magento 2 Luma theme - Frontend

Created: 27/Jan/24 9:04 PM - Updated: 22/Feb/24 7:45 PM

### Description

Magento 2 brings new default theme under the name “Luma”. Luma is a very clean, easy on the eyes and elegant theme that has adopted better usability practices than it's predecessor, Magento 1 default “Madison Island” theme.

**A LUMA theme** is a **pre-designed template** or **group of files** that determine appearance and feel of a Magento-powered store. A theme comprises several aspects that define visual look of storefront, such as **layout**, **typography**, **color scheme**, **images**, and **widgets**.

Luma is one of two out-of-the-box themes accessible when you decide to establish an eCommerce store with Magento, and it is the most popular. In layman's words, it's a collection of **ready-made page layouts**, **themes**, and **features** that you can use to develop business.

### Description

Precondition: We can access the "sign in" option on Luma Home page

The tests will be done using the latest version of Google Chrome.

We will create a new account using Create an account option from Luma home page and we'll test if we can login with this new account.

The test will be created from the Magento 2 Luma's frontend

The screenshot shows the Luma Customer Login page. At the top, there's a navigation bar with 'What's New', 'Women', 'Men', and 'Gear'. Below this, the 'Customer Login' heading is prominent. A blue button with the Facebook logo and the text 'Sign in with Facebook' is visible. Below the button, there's a section for 'Registered Customers' with a prompt to sign in with an email address. There are input fields for 'Email' and 'Password'. Overlaid on the right side of the page is a Facebook login dialog box from Google Chrome. The dialog box has a title bar that says 'Log in with Facebook - Google Chrome' and a URL bar showing 'facebook.com/dialog/oauth?response\_type=code&client\_id=7440248...'. The main content of the dialog box features the Facebook logo, an illustration of a person with a wrench, and the text 'App not active'. Below this, it says 'This app is not accessible right now and the app developer is aware of the issue. You will be able to log in when the app is reactivated.' and an 'OK' button.

Preconditions: We have acces to Luma Sign in page

### Attachments

The screenshot shows the Luma Customer Login page. At the top, there's a navigation bar with 'What's New', 'Women', 'Men', and 'Gear'. Below this, the 'Customer Login' heading is prominent. A 'Sign in with Facebook' button is visible. Underneath, there's a section for 'Registered Customers' with a prompt to sign in with an email address. Input fields for 'Email' and 'Password' are present, along with a 'Show Password' checkbox. Overlaid on the right side of the page is a browser window titled 'Autorizați | LinkedIn - Google Chrome'. The address bar shows a LinkedIn OAuth URL. The main content of the browser window displays the LinkedIn logo and a red error message: 'The application is disabled'.

### Description

Preconditions: We have acces to Luma Sign in page

### Attachments

The screenshot shows the Luma Customer Login page. The page has a header with the LUMA logo and navigation links: What's New, Women, Men, and Gear. The main heading is "Customer Login". Below it is a "Sign in with Facebook" button. Underneath, there's a section for "Registered Customers" with the instruction "If you have an account, sign in with your email address". There are input fields for "Email" and "Password", both marked with a red asterisk. A "Show Password" checkbox is at the bottom left. Overlaid on the right side of the page is a Yahoo! OAuth consent window. The window title is "Yahoo - Google Chrome". The URL bar shows "api.login.yahoo.com/oauth2/consent?client\_id=dj0yJmk9dXZGSk1oUz...". The consent message says "Hi, mihaidaneasa" and "By agreeing, you'll allow membership to access:". It lists "Profile" as a requested permission. At the bottom, it says "I agree to the Yahoo OpenID and OAuth terms" and has two buttons: "Not now" and "Agree".
